

EMRE U. SELİ BIOGRAPHY:

Emre Seli, MD, is Professor and Chief of the Division of Reproductive Endocrinology and Infertility at Yale School of Medicine. Dr. Seli also serves as the Director of Reproductive Endocrinology and Infertility Fellowship Program, Medical Director of Yale Fertility Center, and Director of Egg Donation and Gestational Surrogacy Program.

Dr. Seli received his medical degree from the University of Istanbul Medical School and completed his Residency in Obstetrics and Gynecology at Yale University. His postdoctoral training included a fellowship in Reproductive Endocrinology and Infertility as well as a research fellowship in molecular biology, both at Yale University.

Dr. Seli is the recipient of multiple awards for teaching, clinical excellence, and research, including: American College of Obstetricians and Gynecologists Fellowship Award for Research in Endocrinology of the Postreproductive Woman, North American Menopause Society/Solvay Pharmaceuticals Corporation Fellowship Grant Award, John J. Meehan–Clifford R. Miller Award for academic excellence, Yale University “Resident of Excellence Award” for research, and the Society of Laparoendoscopic Surgeons’ “Outstanding Laparoendoscopic Resident Surgeon Award.” His work on infertility has received two President’s Presenter Awards from the Society for Gynecologic Investigation, the National Institutes of Health (NIH) K08 grant award, the American Society for Reproductive Medicine Ira and Ester Rosenwaks New Investigator Award, and most recently NIH R01 Award.

His current research program is focused on the investigation of the regulation of gene expression during oocyte and early embryo development and non-invasive embryo assessment in assisted reproduction. He has published in leading scientific journals and edited textbooks of gynecologic disorders, infertility, and fertility preservation, and embryo assessment.

M.D:University of Istanbul, Turkey (1992)

Resident: Yale University School of Medicine, Obstetrics & Gynecology (1997 - 2001)

Fellow:Yale University School of Medicine, Reproductive Endocrinology and Infertility (2001 - 2004)

Board Certification: Obstetrics & Gynecology, Board Certified (2005)

Board Certification: Reproductive Endocrinology & Infertility, Board Certified (2009)

Dr. Emre Seli 48 yaşında. Galatasaray Lisesi’ni, ardından İstanbul Üniversitesi Çapa Tıp Fakültesi’ni bitirdi. 1995’te kazandığı bir burs aracılığı ile Amerika’ya Yale Üniversitesi’ne gitti. Burada Kadın Hastalıkları ve Doğum uzmanlığını aldı. Reprodüktif Endokrinoloji ve İnfertilite üzerine üst ihtisasını tamamladıktan sonra Prof. Dr. Aydın Arıcı’nın ekibine katılarak “Reprodüktif immünoloji ve moleküler biyoloji” üzerine çalışmaya başladı. Aralarında National Institutes of Health (NIH) ve American Society for Reproductive Medicine (ASRM)’nin de bulunduğu gibi birçok ünlü kurumdan çok çeşitli onur dereceleri ve ödüller aldı. Halen Yale Üniversitesinde IVF tedavilerinde non-invaziv embriyo değerlendirilmesi ve erken embriyo gelişiminde gen ekspresyonu ve regülasyonu üzerine çeşitli çalışmalar yürütmektedir.

EMRE U SELİ RESEARCH LIST:

1. Human embryonic poly(A)-binding protein (EPAB) alternative splicing is differentially regulated in human oocytes and embryos.
Guzeloglu-Kayisli O, Lalioti MD, Babayev E, Torrealday S, Karakaya C, Seli E.
Mol Hum Reprod. 2014 Jan;20(1):59-65. doi: 10.1093/molehr/gat061. Epub 2013 Sep 3.
2. Natural birth-induced UCP2 in brain development.
Seli E, Horvath TL.
Rev Endocr Metab Disord. 2013 Dec;14(4):347-50. doi: 10.1007/s11154-013-9262-8.
3. Characterization of the gonadotropin releasing hormone receptor (GnRHR) expression and activity in the female mouse ovary.
Torrealday S, Lalioti MD, Guzeloglu-Kayisli O, Seli E.
Endocrinology. 2013 Oct;154(10):3877-87. doi: 10.1210/en.2013-1341. Epub 2013 Aug 2.
4. Current trends and progress in clinical applications of oocyte cryopreservation.
Cil AP, Seli E.
Curr Opin Obstet Gynecol. 2013 Jun;25(3):247-54. doi: 10.1097/GCO.0b013e32836091f4. Review.
5. mRNA-binding protein ZFP36 is expressed in atherosclerotic lesions and reduces inflammation in aortic endothelial cells.
Zhang H, Taylor WR, Joseph G, Caracciolo V, Gonzales DM, Sidell N, Seli E, Blackshear PJ, Kallen CB.
Arterioscler Thromb Vasc Biol. 2013 Jun;33(6):1212-20. doi: 10.1161/ATVBAHA.113.301496. Epub 2013 Apr 4.
6. Cumulus and granulosa cell markers of oocyte and embryo quality.
Uyar A, Torrealday S, Seli E.
Fertil Steril. 2013 Mar 15;99(4):979-97. doi: 10.1016/j.fertnstert.2013.01.129. Review.
7. Epab and Pabpc1 are differentially expressed during male germ cell development.
Ozturk S, Guzeloglu-Kayisli O, Demir N, Sozen B, Ilbay O, Lalioti MD, Seli E.
Reprod Sci. 2012 Sep;19(9):911-22. doi: 10.1177/1933719112446086. Epub 2012 Jul 18.
8. Embryonic poly(A)-binding protein (EPAB) is required for oocyte maturation and female fertility in mice.
Guzeloglu-Kayisli O, Lalioti MD, Aydiner F, Sasson I, Ilbay O, Sakkas D, Lowther KM, Mehlmann LM, Seli E.
Biochem J. 2012 Aug 15;446(1):47-58. doi: 10.1042/BJ20120467.
9. The association between fertility clinic performance and cycle volume: implications for public reporting of provider performance data.
Gong D, Seli E.
Fertil Steril. 2012 Jul;98(1):55-62. doi: 10.1016/j.fertnstert.2012.03.036. Epub 2012 Apr 21.
10. Embryonic poly(A)-binding protein (ePAB) phosphorylation is required for *Xenopus* oocyte maturation.
Friend K, Brook M, Bezirci FB, Sheets MD, Gray NK, Seli E.
Biochem J. 2012 Jul 1;445(1):93-100. doi: 10.1042/BJ20120304.
11. Embryo assessment strategies and their validation for clinical use: a critical analysis of methodology.
Uyar A, Seli E.
Curr Opin Obstet Gynecol. 2012 Jun;24(3):141-50. doi: 10.1097/GCO.0b013e328352cd17. Review.
12. The mRNA-binding protein Zfp36 is upregulated by β -adrenergic stimulation and represses IL-6 production in 3T3-L1 adipocytes.
Brahma PK, Zhang H, Murray BS, Shu FJ, Sidell N, Seli E, Kallen CB.
Obesity (Silver Spring). 2012 Jan;20(1):40-7. doi: 10.1038/oby.2011.259. Epub 2011 Aug 4.
13. Fertility preservation as a public health issue: an epidemiological perspective.
Murk W, Seli E.
Curr Opin Obstet Gynecol. 2011 Jun;23(3):143-50. doi: 10.1097/GCO.0b013e3283455270. Review.

14. Preterm deliveries that result from multiple pregnancies associated with assisted reproductive technologies in the USA: a cost analysis.
Bromer JG, Ata B, Seli M, Lockwood CJ, Seli E.
Curr Opin Obstet Gynecol. 2011 Jun;23(3):168-73. doi: 10.1097/GCO.0b013e32834551cd. Review.
15. The kinase VRK1 is required for normal meiotic progression in mammalian oogenesis.
Schober CS, Aydiner F, Booth CJ, Seli E, Reinke V.
Mech Dev. 2011 Mar-Apr;128(3-4):178-90. doi: 10.1016/j.mod.2011.01.004. Epub 2011 Jan 26.
16. Assisted reproduction in a patient with Klippel-Trenaunay syndrome: management of thrombophilia and consumptive coagulopathy.
Martin JR, Pels SG, Paidas M, Seli E.
J Assist Reprod Genet. 2011 Mar;28(3):217-9. doi: 10.1007/s10815-010-9526-0. Epub 2010 Dec 29.
17. Receiver operating characteristic (ROC) analysis of day 5 morphology grading and metabolomic Viability Score on predicting implantation outcome.
Seli E, Bruce C, Botros L, Henson M, Roos P, Judge K, Hardarson T, Ahlström A, Harrison P, Henman M, Go K, Acevedo N, Siques J, Tucker M, Sakkas D.
J Assist Reprod Genet. 2011 Feb;28(2):137-44. doi: 10.1007/s10815-010-9501-9. Epub 2010 Nov 10.
18. The mRNA-binding protein HuR is regulated in the menstrual cycle and repressed in ectopic endometrium.
Karipcin FS, Ensari TA, Kayisli UA, Guzel E, Kallen CB, Seli E.
Reprod Sci. 2011 Feb;18(2):145-55. doi: 10.1177/1933719110382307. Epub 2010 Oct 1.
19. Gay men choosing parenthood through assisted reproduction: medical and psychosocial considerations.
Greenfeld DA, Seli E.
Fertil Steril. 2011 Jan;95(1):225-9. doi: 10.1016/j.fertnstert.2010.05.053. Epub 2010 Jul 18.
20. OMICS in assisted reproduction: possibilities and pitfalls.
Seli E, Robert C, Sirard MA.
Mol Hum Reprod. 2010 Aug;16(8):513-30. doi: 10.1093/molehr/gaq041. Epub 2010 Jun 10. Review.
21. Third party reproduction and the aging couple.
Luk J, Greenfeld DA, Seli E.
Maturitas. 2010 Aug;66(4):389-96. doi: 10.1016/j.maturitas.2010.03.024. Epub 2010 May 6. Review.
22. Economics of assisted reproductive technologies.
Ata B, Seli E.
Curr Opin Obstet Gynecol. 2010 Jun;22(3):183-8. doi: 10.1097/GCO.0b013e3283373c13. Review.
23. Identification and in vitro characterization of follicle stimulating hormone (FSH) receptor variants associated with abnormal ovarian response to FSH.
Gerasimova T, Thanasoula MN, Zattas D, Seli E, Sakkas D, Lalioti MD.
J Clin Endocrinol Metab. 2010 Feb;95(2):529-36. doi: 10.1210/jc.2009-1304. Epub 2010 Jan 8.
24. Noninvasive metabolomic profiling as an adjunct to morphology for noninvasive embryo assessment in women undergoing single embryo transfer.
Seli E, Vergouw CG, Morita H, Botros L, Roos P, Lambalk CB, Yamashita N, Kato O, Sakkas D.
Fertil Steril. 2010 Jul;94(2):535-42. doi: 10.1016/j.fertnstert.2009.03.078. Epub 2009 Jul 8.
25. Metabolomics and its application for non-invasive embryo assessment in IVF.
Botros L, Sakkas D, Seli E.
Mol Hum Reprod. 2008 Dec;14(12):679-90. doi: 10.1093/molehr/gan066.
26. Noninvasive metabolomic profiling of embryo culture media using proton nuclear magnetic resonance correlates with reproductive potential of embryos in women undergoing in vitro fertilization.
Seli E, Botros L, Sakkas D, Burns DH.
Fertil Steril. 2008 Dec;90(6):2183-9. doi: 10.1016/j.fertnstert.2008.07.1739. Epub 2008 Oct 8.
27. Identification and characterization of human embryonic poly(A) binding protein (EPAB).
Guzeloglu-Kayisli O, Pauli S, Demir H, Lalioti MD, Sakkas D, Seli E.
Mol Hum Reprod. 2008 Oct;14(10):581-8. doi: 10.1093/molehr/gan047. Epub 2008 Aug 20.

28. Alternative splicing of the mouse embryonic poly(A) binding protein (Epub) mRNA is regulated by an exonic splicing enhancer: a model for post-transcriptional control of gene expression in the oocyte.

Seli E, Yaba A, Guzeloglu-Kayisli O, Lalioti MD.

Mol Hum Reprod. 2008 Jul;14(7):393-8. doi: 10.1093/molehr/gan028. Epub 2008 May 20.

29. Assessment of embryo viability in assisted reproductive technology: shortcomings of current approaches and the emerging role of metabolomics.

Bromer JG, Seli E.

Curr Opin Obstet Gynecol. 2008 Jun;20(3):234-41. doi: 10.1097/GCO.0b013e3282fe723d. Review.

30. Noninvasive metabolomic profiling of human embryo culture media using Raman spectroscopy predicts embryonic reproductive potential: a prospective blinded pilot study.

Scott R, Seli E, Miller K, Sakkas D, Scott K, Burns DH.

Fertil Steril. 2008 Jul;90(1):77-83. doi: 10.1016/j.fertnstert.2007.11.058. Epub 2008 Feb 20.

31. Noninvasive metabolomic profiling of embryo culture media using Raman and near-infrared spectroscopy correlates with reproductive potential of embryos in women undergoing in vitro fertilization.

Seli E, Sakkas D, Scott R, Kwok SC, Rosendahl SM, Burns DH.

Fertil Steril. 2007 Nov;88(5):1350-7. Epub 2007 Oct 17.

32. Estrogen increases apoptosis in the arterial wall in a murine atherosclerosis model.

Seli E, Guzeloglu-Kayisli O, Kayisli UA, Kizilay G, Arici A.

Fertil Steril. 2007 Oct;88(4 Suppl):1190-6. Epub 2007 May 11.

33. Salpingectomy increases peri-implantation endometrial HOXA10 expression in women with hydrosalpinx.

Daftary GS, Kayisli U, Seli E, Bukulmez O, Arici A, Taylor HS.

Fertil Steril. 2007 Feb;87(2):367-72. Epub 2006 Dec 14.

34. Estradiol increases apoptosis in human coronary artery endothelial cells by up-regulating Fas and Fas ligand expression.

Seli E, Guzeloglu-Kayisli O, Cakmak H, Kayisli UA, Selam B, Arici A.

J Clin Endocrinol Metab. 2006 Dec;91(12):4995-5001. Epub 2006 Sep 26.

35. Stem cells and fertility: what does the future hold?

Kayisli UA, Seli E.

Curr Opin Obstet Gynecol. 2006 Jun;18(3):338-43. Review.

36. Metazoan oocyte and early embryo development program: a progression through translation regulatory cascades.

Vasudevan S, Seli E, Steitz JA.

Genes Dev. 2006 Jan 15;20(2):138-46. No abstract available.

37. Removal of hydrosalpinges increases endometrial leukemia inhibitory factor (LIF) expression at the time of the implantation window.

Seli E, Kayisli UA, Cakmak H, Bukulmez O, Bildirici I, Guzeloglu-Kayisli O, Arici A.

Hum Reprod. 2005 Nov;20(11):3012-7. Epub 2005 Jul 15.

38. Fertility preservation options for female patients with malignancies.

Seli E, Tangir J.

Curr Opin Obstet Gynecol. 2005 Jun;17(3):299-308. Review.

39. The significance of sperm nuclear DNA strand breaks on reproductive outcome.

Spano M, Seli E, Bizzaro D, Manicardi GC, Sakkas D.

Curr Opin Obstet Gynecol. 2005 Jun;17(3):255-60. Review.

40. Spermatozoal nuclear determinants of reproductive outcome: implications for ART.

Seli E, Sakkas D.

Hum Reprod Update. 2005 Jul-Aug;11(4):337-49. Epub 2005 Apr 29. Review.

41. An embryonic poly(A)-binding protein (ePAB) is expressed in mouse oocytes and early preimplantation embryos.

Seli E, Lalioti MD, Flaherty SM, Sakkas D, Terzi N, Steitz JA.

Proc Natl Acad Sci U S A. 2005 Jan 11;102(2):367-72. Epub 2005 Jan 3.

42. Extent of nuclear DNA damage in ejaculated spermatozoa impacts on blastocyst development after in vitro fertilization.
Seli E, Gardner DK, Schoolcraft WB, Moffatt O, Sakkas D.
Fertil Steril. 2004 Aug;82(2):378-83.

43. The presence of abnormal spermatozoa in the ejaculate: did apoptosis fail?
Sakkas D, Seli E, Manicardi GC, Nijs M, Ombelet W, Bizzaro D.
Hum Fertil (Camb). 2004 Jun;7(2):99-103. Review.

44. Evidence-based diagnosis and management of tubal factor infertility.
Kodaman PH, Arici A, Seli E.
Curr Opin Obstet Gynecol. 2004 Jun;16(3):221-9. Review.

45. Treatment of PCOS with metformin and other insulin-sensitizing agents.
Seli E, Duleba AJ.
Curr Diab Rep. 2004 Feb;4(1):69-75. Review.

46. Abnormal spermatozoa in the ejaculate: abortive apoptosis and faulty nuclear remodelling during spermatogenesis.
Sakkas D, Seli E, Bizzaro D, Tarozzi N, Manicardi GC.
Reprod Biomed Online. 2003 Oct-Nov;7(4):428-32. Review.

47. Endometriosis: interaction of immune and endocrine systems.
Seli E, Arici A.
Semin Reprod Med. 2003 May;21(2):135-44. Review.

48. Pathogenesis of endometriosis.
Seli E, Berkkanoglu M, Arici A.
Obstet Gynecol Clin North Am. 2003 Mar;30(1):41-61. Review.

49. Estradiol suppresses vascular monocyte chemotactic protein-1 expression during early atherogenesis.
Seli E, Kayisli UA, Selam B, Seli M, Arici A.
Am J Obstet Gynecol. 2002 Dec;187(6):1544-9.

50. Should patients with polycystic ovarian syndrome be treated with metformin?
Seli E, Duleba AJ.
Hum Reprod. 2002 Sep;17(9):2230-6. Review.

51. Optimizing ovulation induction in women with polycystic ovary syndrome.
Seli E, Duleba AJ.
Curr Opin Obstet Gynecol. 2002 Jun;14(3):245-54. Review.

52. Estradiol down-regulates MCP-1 expression in human coronary artery endothelial cells.
Seli E, Pehlivan T, Selam B, Garcia-Velasco JA, Arici A.
Fertil Steril. 2002 Mar;77(3):542-7.
